

Basic Series MA³RK 422

Certified for:

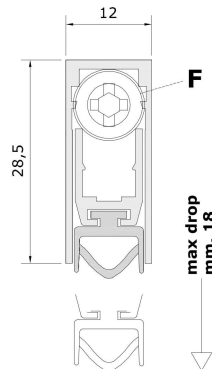

- Sound insulation
43 dB
- Fire resistance:
30 min. (EPDM standard gasket)
60 min. (optional silicon gasket)
- Insulation from smoke
2,16 m³ / h / m - 25 Pa
- Usage cycles
200.000 cycles

Protects from:

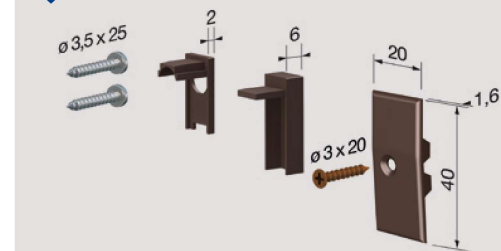

- Air
- Water
- Light
- Insects

Not an obstacle for disabled persons

Standard measurements (mm)	330	430	530	630	730	830	930	1030	1130	1230	1330
Max shortening (mm)	130	130	200	200	200	200	200	200	200	200	200

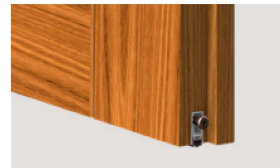

FASTENING SYSTEMS

Remove and screw

MAIN APPLICATIONS

Wood door

PVC doors

Mechanism with a single adjustment (screw F: descent) characterised by the controlled movement of the moving profile with gasket (immediate descent from the hinge side of the door and consequent gradual descent for the entire length) for adjustment to the floor.

STANDARD: Cardboard box with 40 pcs + 40 standard accessory packs.

Extruded profiles in aluminium alloy 6060 - tubular gasket in EPDM - elements printed in self-lubricating nylon + nylon reinforced with 30% glass fibre - threaded rods in burnished iron - Ø 5 mm brass bushing - coil springs in treated stainless steel.

OPTIONAL ACCESSORIES

Details on page 102

1 Nylon plate

CA101	CA102	CA105	
CA201	CA202	CA203	CA204
CA205	CA207		

100 pcs pack
 brown, white

2 Insulating nylon plate with silicon gasket

PI001	PI002	PI002-R
PI003	PI004	PI005

20 pcs pack
 brown, white

3 Using brackets

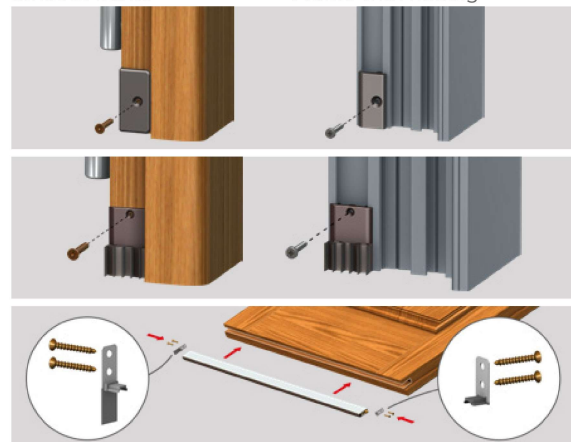

SC002A	SC002B-422
--------	------------

20 pcs pack
 steel, brown

Application examples

Smooth frame

Frame with ribbing

BUTTON (F): hexagonal brass, square nylon, bevelled nylon. **GASKET:** silicon tubular, brush

OPTIONAL: Cardboard box with 15 polyethylene bags with 1 pc + 1 standard accessory pack + assembly instructions
